CPRE Factsheet

Requirements Elicitation Practitioner | Level 2

Professionalize your RE practice in requirements elicitation

Target group

People from RE, business analysis, business engineering, software- and system development, demand management, project and product management, and other departments who want to deepen their knowledge about requirements elicitation.

Prerequisites

CPRE Foundation certificate or BCS Practitioner certificate in RE

The module provides comprehensive knowledge and skills:

- elicit requirements effectively and efficiently
- identify sources of requirements
- structured planning and execution of requirements elicitation and conflict resolution
- select the appropriate elicitation techniques for specific situations
- identify and resolve requirements conflicts
- be able to assess one's own elicitation capabilities and develop personally

Exam

75-minute multiple-choice test with approx. 45 questions
